

GBTEN Chapter. Information File Ref: Bactrac_info_#209.txt

Programme Information sheet: File ref:
Information correct as of the 13/1/2004.

Welcome to the Bactrac Upgrade Programme Information sheet.

~~~~~

The Backtrac Programme is available to members who have collected 100 each WACS and WAFS seals and have also had their own WACS and WAFS seals used 100 times by other members. This information is contained in each Chapter Upgrade Summary Sheet. Your CM also keeps details of all seal usages.

This Programme consists of 3 separate worksheets. Each worksheet is issued in turn and you must complete them, as issued, in rotation.

All submissions on the Bactrac upgrade Programme must be sorted in GBTEN membership order. An entry received and not sorted correctly will be returned for correction

Retro contacts will not be permitted throughout this upgrade Programme. All QSO's must take place on or after the start date which will be clearly indicated on each of the three Worksheets.

This Programme consists of collecting details from members who have already submitted various past GBTEN specials and seals.

Full requirements are contained within each worksheet as soon as you qualify for this upgrade Programme.

Thank you for reading this upgrade Information sheet. I hope that you have found it to be of help to you..

Many thanks..

Dave G4KHF CM GBTEN Chapter...
