

The GBTEN Chapter: Worked All Members Programme Ref Contacts.118

Amended date of this information : 09/09/02
Start Date: 1st January 2000, GBTEN Worked All Members Upgrade.

On the above date we introduced a Worked All Members upgrade programme. This is a one time only contact programme with no dupes permitted. All QSO's must have taken place on or after the 1st January 2000. You may use any mode your licence permits you to transmit with on the Ten Metres Band to make your contacts.. Sorry but, no mode endorsements are available for this programme. A one time contact only.

The number of contacts you have made, and the points earned from them, are shown on each of your upgrade summary sheets once you have submitted at least 50 contacts. They will not show up until then.

You may request a printout file, sorted in GBTEN order, at any time from the CM, of the contacts you have made and been credited with. Even if you have not made 50 contacts, this file is still available for your records. You may submit any quantities at any time. However, they must all have been made on or after the 1st January 2000.

Please submit your lists as a separate item clearly indicating that it is a submission for your Worked All Members Programme. Without this, it will not be easy for your CM to work out ! Hi

All submissions must include at least the following information:- An indication that you have worked the member, collected the callsign and the GBTEN number from the 1st January 2000 onwards.

-73- de **Dave G4KHF** CM GBTEN Chapter of 10/10.
